**Dear Ms. Hanlon:**

**I am writing to you to express my deep concern over the Yucca Mountain Project and the flawed process railroading it towards approval.**

**How can the Secretary of Energy be preparing to recommend Yucca Mountain for a high-level nuclear waste dump when thousands of public comments on the Draft Environmental Impact Statement still have not been addressed. Without a Final Environmental Impact Statement, a detailed transportation scenario, finalized Siting Guidelines, or a licensing rule, the Department of Energy lacks the basis for consideration of site suitability.**

**The public cannot have confidence in any recommendation that arises from such a dramatically flawed process.**

**I urge you to abandon the Yucca Mountain Project.**

**Sincerely,**
